

## RENT POLICY

This policy was approved by the Committee of Management on 16th March 2022.  
It should be reviewed again no later than March 2023.

### The multiplier for the rent increase of 4% for 2022-23 is 1.3105

The policy has been assessed through the organisational impact assessment process.  
We can, if requested, produce this document in different formats such as larger print or audio-format. We can also translate the document into various languages, as appropriate.

#### SCOTTISH HOUSING REGULATOR STANDARDS

##### STANDARD 1:

The governing body leads and directs the RSL to achieve good outcomes for its tenants and other service users.

##### STANDARD 2:

The RSL is open about and accountable for what it does. It understands and takes account of the needs and priorities of its tenants, service users and stakeholders. Its primary focus is the sustainable achievement of these priorities.

##### STANDARD 4:

The governing body bases its decisions on good quality information and advice and identifies and mitigates risks to the organisation's purpose.

##### STANDARD 5:

The RSL conducts its affairs with honesty and integrity.

##### STANDARD 6:

The governing body and senior officers have the skills and knowledge they need to be effective.

The following in particular have been considered in relation to this policy:

- Housing (Scotland) Act 2014
- Guide to Rent Setting & Affordability Tool: SFHA 2020

WEST GRANTON HOUSING CO-OPERATIVE LIMITED

## 1.0 POLICY INTRODUCTION

WGHC was established primarily to provide a range of quality housing in West Granton and the surrounding area at rents which people on relatively low incomes can afford to pay. The key principles in setting rents and other charges will be that they should:

- be affordable to tenants and applicants;
- be comparable with other social landlords;
- cover annual operating costs;
- provide for future maintenance;
- cover loan repayments and interest charges;
- provide long term financial stability.

## 2.0 RENTS

WGHC will seek to set rents that are affordable to our tenants and will consider changes in earnings, pensions and benefits when reviewing rents.

Membership of a housing co-operative involves participation in the management of the housing stock therefore WGHC wishes to avoid setting rents significantly above or below those of other providers of social rented housing which could encourage or deter applicants purely because of rent levels.

WGHC will take account of the rent levels of other providers of social rented housing in the local area and will seek to set rents which are broadly comparable. The Co-operative recognises the fundamental importance of ensuring that standards of management and maintenance of the housing stock are of the highest order. Rents will be set which adequately cover management and maintenance administration costs, reactive maintenance, depreciation and other annual operating costs. WGHC will consider both general inflation and WGHC specific cost changes when reviewing rents.

Rental income must also be adequate to cover the interest payable on loan funding and any covenants relating to these loans. Planned maintenance includes both regular annual works and cyclical maintenance or one off projects. Expenditure in some years is much higher than others. The Co-operative will use long term programming and cash flow projections to assist in adequately providing for planned maintenance.

WGHC will replace housing components (e.g. kitchens and bathrooms) regularly to maintain the quality of and demand for its housing stock. WGHC must also repay development loans. In rent setting and budgeting WGHC will have regard to medium and long term cash flow to ensure rental income is adequate to cover loan repayments and capital investment. WGHC rents will also include provision for the building up of reserves to cover periods of risk or unforeseeable costs.

### 2.1 Rent Reviews

**Rents will be reviewed once a year.** Changes will be approved by the Committee of Management after consultation with tenants.

### 3.0 RENT SETTING MECHANISM

An administrative points system is used to assign points to each property type. Pointing of new developments or alterations to the basic points system must be approved by the Committee of Management. Minor amendments to the pointing of individual houses to reflect changes in amenities etc. may be approved by the CEO or COO.

#### **Basic Points**

A basic number of points are assigned to house types. Points distinguish between basic house types to recognise desirability but the differential is fairly minor.

Houses and bungalows have the highest points; four in a block flats second; other flats third and finally 1 remaining flat in West Pilton Drive (where common maintenance is a problem due to mixed ownership).

#### **Equalisers**

WGHC believes that people with physical disabilities should not be further disadvantaged by high rents. Therefore points are not added for features of properties designed to meet the needs of those with physical disabilities. Points are deducted if an increased area or amenity was provided solely to accommodate special needs including physical disability.

#### **Size Points**

One point is assigned per square metre of the approximate average floor area of the property type. In accordance with (b) above, additional space provided in relation to disabilities (e.g. wheelchair accessibility) is not counted.

Property size provides the biggest single differential between rents.

#### **Additional Amenities**

Points may be added for additional amenities: additional cloakrooms and bathrooms; garden fencing; garden huts etc. The number of points broadly reflect the cost of provision of the amenity.

#### **Flooring**

All properties have flooring laid in kitchens and bathrooms. Some properties have additional floor coverings in the living areas. In Area 3, we have 1 flat which has carpets throughout.

In Area 2 all flats and most houses have laminate flooring. Points are awarded where this additional flooring is provided. The points reflect the size of the property.

As of 2009 we stopped routinely repairing or replacing flooring in houses in Area 2 when they are relet.

#### **Flats – common maintenance**

In most blocks of flats there are costs relating to the maintenance of common parts or common services. Costs fall into three main groups:

- In all flatted blocks WGHC will have stairs cleaned on a regular basis.
- Flatted blocks generally have a common electrical supply for stair lighting and/or communal TV aerials/dishes and/or door entry systems and/or alarm systems.
- Other services are specific to individual developments. These can include: fire alarms; lift maintenance and alarms; communal TV aerials/dishes; water tanks, parking areas etc.

The points cover the estimated cost of common maintenance in the property type.

### Part Furnished Flats

A small number of WGHC flats are partly furnished (10 in 2020). Furnishings vary from white goods and window blinds in Granton Mill to window blinds in West Pilton Drive. The purpose is to assist (especially) new households to set up home by reducing initial costs.

The points cover maintenance costs, insurance, safety inspections and an allowance for depreciation.

Key to Property types:

1b = 1 bedroom; 2b = 2 bedrooms etc.

a = amenity bungalow; f = flat; mdf = main door flat; h = house; w = wheelchair; pkg = parking.

### 3.2 Multiplier

A multiplier is used to convert the points into rents for each property type.

The level of the multiplier will be set to ensure that the total rental income from the housing stock is sufficient to cover costs and in accordance with the principles set out in sections 1 and 2. The multiplier will be revised annually.

## 4.0 COMPLAINTS

If anyone wishes to complain about how they were treated in relation to this policy or that this policy has not been adhered to they should refer to WGHC Complaints Policy. Copies are available from the office and from our website.

## 5.0 POLICY REVIEW

This policy will be reviewed annually in accordance with the annual rent change consultation and review.
